

RECENTLY GRANTED >>>>>>

AUTOMATION

- ✓ Rockwell ControlLogix Integration of Ancillary and Feed Systems for a broader Wastewater Alfa Laval Centrifuge.
- ✓ Rockwell ControlLogix PLC Monitoring System for an Animal Health client's new laboratory facility.
- ✓ Development of Johnson Metasys System Software Design Specifications (SDS's) for a Biotech Campus' Building Management Systems.
- ✓ Master Service Agreement (MSA) signed with a Pharmaceutical OEM to provide automation, instrumentation and CQV services for the deployment of their new systems and support for existing systems.
- ✓ DeltaV (S88 Batch) and Johnson Metasys Subject Matter Expert for a Pharmaceutical Client's BMS systems at API manufacturing sites.
- ✓ Resident contractors for an Animal Health Manufacturing site including Rockwell ControlLogix PLC support and upgrades for multiple systems.
- ✓ Utilities Monitoring and Distribution PLC systems upgrade with Rockwell ControlLogix and WonderWare HMI's.
- ✓ Automation & CSV services for Johnson Controls Metasys Building Management Systems (BMS) expansion project at a biotech facility.
- ✓ DeltaV system integration for utilities expansion project at a Biotech facility.
- ✓ Automation retrofits, using ControlLogix and iFix, for Fill & Finish process equipment at a Pharmaceutical client.
- ✓ Resident contractors for 2nd and 3rd shift Rockwell Automation operational support at S88 Batch process biopharmaceutical plant.
- ✓ DeltaV programming for Continuous Manufacturing initiative at pharmaceutical client.
- ✓ DelatV system integration services for Urea Process upgrade at Biopharmaceutical plant.
- ✓ Automation support for 1st and 3rd shift manufacturing operations including PLC and HMI platforms change management and troubleshooting.

VALIDATION (CSV/C&Q)

- ✓ CQV Lead for the optimization of multiple device lines to reduce waste of product from cartridge overfilling. The lines are controlled predominately by Rockwell ControlLogix PLC's and the lines are global in nature.
- ✓ Extension of our contract for a major pharmaceutical company's global serialization (SysTech) project including participation on the C&Q and deployment of the solution to global sites.
- ✓ DeltaV CSV for Urea Process upgrade.
- ✓ CSV services for Continuous Manufacturing initiative using DeltaV .
- ✓ CQV support for a major biopharma client's device manufacturing metrology laboratories.
- ✓ CQV support for a pharmaceutical delivery device line manufacturer (OEM).
- ✓ CSV support for new DeltaV system at pharma client.

INSTRUMENTATION

- ✓ We will be procuring and preparing the documentation sets including the Receipt Verifications (RV's) and Construction Turnover Packages (CTOPs) for a biopharma's fermentation facility recapitalization project.
- ✓ Visual and Audible Warning System Installation for utility tank level at biotech facility.

OUTSOURCING

- ✓ Implementation of Managed Service Provider (Outsourcing) business model for major biopharma client where we have key responsibilities in the automation (daily, on-call, work order, and capital project support) and validation (daily, change order, project management, and capital project support) deliverables for the CSV, Manufacturing, and Utilities departments.

RECENTLY COMPLETED >>>>>>

AUTOMATION

- ✓ Two (2) Centrifuges are in the start-up phase in which we did all of the panel fabrication, integration, and start-up/commissioning services for a Wastewater Treatment facility's retrofit of their existing belt press systems with centrifugation technology.
- ✓ Five (5) Rockwell PLC retrofits (SLC & PLC5 to CompaqLogic and CLx) within utilities area of a pharmaceutical plant
- ✓ Serialization project automation support for packaging facility.
- ✓ OSIsoft® PI System® visualization/historian and CSV support at biotech client.

VALIDATION (CSV/C&Q)

- ✓ CWV Leadership and project implementation on the Wet assembly line of a new pharmaceutical delivery device manufacturing line. This has included the project management, planning and implementation of the C&Q and CSV deliverables of the project from the OEM to the manufacturing site.
- ✓ Documentation services to support compliance team at pharma client.

GENERAL NEWS >>>>>>

- ✓ PACIV-PR's recently inaugurated its new Integration Floor located at the 4th floor of its Puerto Rico offices. This is a 1,525 sq.ft. facility is designed to promote team work and collaboration through the full System Development Life cycle of automation projects.
- ✓ PACIV – Named one of the “100 Fastest Growing Locally Owned Companies” in Puerto Rico.
