

RECENTLY GRANTED >>>>>>

AUTOMATION

- ✓ DeltaV system “Resident Automation Technicians” on-site (24/7) support of Biotech manufacturing operations.
- ✓ Systech and Rockwell Automation support via a Resident Automation Engineer for new Packaging Line Project at Biotech Fill and Finish Facility.
- ✓ FactoryTalk View integration of Manufacturing Room ID Panels to Electronic Notebook System for Room Status Display at Pharmaceutical (Dry-products) facility.
- ✓ Rockwell control panel builds (20 enclosures) for automotive company assembling heavy-duty truck engines.
- ✓ Automation Support (Rockwell Clx, SCADA, Honeywell) via Resident Contractor for a new Vial Filling Line at a BioPharma facility.
- ✓ Rockwell ControlLogix programming and integration for multiple projects within the Polymer Control and Ancillary Systems for a Wastewater Treatment Plant.
- ✓ Provide System Administration and Operations Support Services for DeltaV Platform at a Biotechnology Process Development Laboratory.
- ✓ Rockwell Platform System Administration and Operations Support Services at a Biotechnology Bulk Manufacturing Facility.

VALIDATION (CSV/C&Q)

- ✓ Automation Systems Documentation Support via Resident Contractors for Periodic Reviews, Data Integrity Assessments, and Disaster Recovery Plans at a Biotechnology client.
- ✓ C&Q Lead and Support roles for the qualification of new and modified semi-automated assembly lines for critical platforms at major Pharma client.
- ✓ Additional CQV support for Serialization project at major Pharma client.
- ✓ CQV services via Resident Contractors for lab equipment, building management, and utility systems at startup Biosimilar client.
- ✓ C&Q services supporting qualification and approval of device assembly line at newly selected OEM for major Pharma client.

INSTRUMENTATION

- ✓ Turnkey Project for the Installation and Qualification of a New DeltaV Thin Client Station at a Biotechnology Manufacturing Facility.
- ✓ Installation and Integration with of Interlocks and Alarms for Waste Water Treatment Plant Process Improvements at a Biotech Client DeltaV System.

RECENTLY COMPLETED >>>>>>

AUTOMATION

- ✓ DeltaV SME and commissioning engineering support, on a day to day basis, for Biotech expansion.
- ✓ DeltaV automation consulting services for Pilot Plant expansion at Biotech mfg. plant.
- ✓ Automation Project Management service for HVAC upgrade projects at pharmaceutical plant.
- ✓ Automation Retrofits, using ControlLogix and iFix, for Fill & Finish process equipment at a Pharmaceutical client.
- ✓ Resident contractors for 2nd and 3rd shift Rockwell Automation operational support at S88 Batch process biopharmaceutical plant.
- ✓ Automation support for 1st and 3rd shift manufacturing operations including PLC and HMI platforms change management and troubleshooting.
